NO CHANGE IN THE STRIKE.

Democratic Boss Plumbers Hold Candidate Hudson Responsible for the Trouble.

There has been no change in the attitude of the strike of the journeymen gas-fitters. The men who are engaged in trying to force the bosses to terms are out with but little hope of success. Yesterday the strikers held several meetings in their hall at 11½ West Washington street, and at one of these it was decided to establish a co-operative shop, and a committee was appointed to rent a suitable room. The strikers claimed that a number of their men had been re-employed at the advance scale of \$3.50 a day, but this was emphatically denied by the bosses. The firm of C. W. Melkel & Co. is feeling the strike more than any other, inasmuch as it happened to have employed seventeen of those who aided in organizing the strike. Mr. Melkel, however, is unwavering. Strikers say that a number of the small shops that could not get fitters before the strike are taking the men at the scale demanded. It is asserted that fifteen of the men out want to work yesterday.

At the meeting of the bosses, on Monday night, when it was stated by some one present that Henry T. Hudson had been urging on the strike, and had been a leader in the movement, war against Hudson, it is said, was immediately begun by the bosses who act with the Democratic party. They seem indignant because a plumber and a Democratic candidate should seek, they said, to gain votes from the labor element by not only sacrificing his principles, but the welfare of his brother plumbers by causing a strike. They considered this phase of the difficulty, and decided that two of their number should be chosen as a committee to wait upon Tom Taggart, chairman of the Democratic county committee, and lay the matter before him. Yesterday morning, at 8 o'clock, the committee called upon Mr. Taggart and made their complaint. He listened attentively and informed the committee that as soon as he could get the members of the committee together he would call Mr. Hudson before the body and demand of him an explanation. One of the plumbers' committee informed a Journal reporter that every Democratic gas-fitter in the city would do all he could to defeat Hudson. He furthermore stated that Hudson had told him that he wanted to be elected to have a law passed prohibiting Eastern boss fitters from coming to this city. Hudson, it is further stated, has a contract without any stipulated price to do the piping for both the Indiana Hospital and the Deaf and Dumb Asylum. It is charged that his profits on this work will be more than sufficient to pay his men the advance the strikers demand.

CULLINGS FROM THE COURTS.

Finishing the Wicked Who Have Been Found Guilty of Crime.
John Baty, a gray-headed man, was arraigned in the Criminal Court yesterday morning charged with feloniously assaulting Myrtle Correll, ten years of age. He pleaded not guilty, but the evidence showed the falsity of his plea, and Judge Irvin sentenced him to seven years in the penitentiary. Hugo Houser, brought before the same judge for stealing a pair of pantaloons, pleaded guilty and was given two years in prison. The judge also overruled a motion for a new trial for Geo. W. Long, who had been indicted for the murder of a woman, and sentenced him to twenty-one years in the State's prison. The attorneys for Long will appeal the case to the Supreme Court.

Under Adversity.

Judge Taylor, yesterday morning, heard the petition for the appointment of a receiver for the Labor Signal, and for an order enjoining Thomas M. Gracie from continuing the publication of the paper. There was but little evidence submitted, the greater part of the forenoon being taken up with argument by Shepherd & Martindale, for the plaintiff, and Henry Span, for the defense. The judge took the case under advisement, and will render a decision some time this week.

Bound Over to the Grand Jury.

Edward Reed, arrested on Monday for passing a counterfeit dollar in O'Brien's saloon, on East Washington street, was arraigned before Commissioner Van Buren yesterday, and was bound over to the United States grand jury in the sum of \$500.

The Court Record.

SUPREME COURT.
The Supreme Court rendered the following decisions on Sept. 18:
13820. Thomas E. Gaylord et al. vs. City of Lafayette et al. Tippecanoe C. C. Affirmed. Mitchell, J.—When land is conveyed a trust may be established by letters exchanged between the purchaser and the grantor. If the trust is imperfect and executory, but the donor perfects it, it will be enforceable. If the trust is perfect from the beginning, it will be enforceable from the beginning, and a judgment will not be reversed because a continuance was refused on account of such attorney's absence unless it be made to appear that some real injustice was probably done. A case may be continued by agreement of attorneys with the sanction of the court, but a party is not justified in assuming that a case will be postponed because he agreed to it with his adversary.

14283. City of Wabash Railroad Company, Huntington, C. O. A. Affirmed. Elliott, J.—Where a corporation is in the hands of a receiver who has full possession of its property and entire charge of its affairs the corporation cannot be presented for crimes or misdemeanors committed by agents or servants of the receiver.

14280. Eliza Cunningham et al. vs. State, St. Joseph C. C. Affirmed. How, J.—When a receiver binds himself for the appearance of the defendant without objection they waived all the defects, errors and irregularities in the proceedings which led to the arrest and imprisonment of the defendant.

13845. Charles W. Branch vs. Louisa J. Faust. Madison C. C. Affirmed. Zeller, J.—The findings or conclusions of law are not signed by the judge and are not in the bill of exceptions. They will therefore be regarded as a general finding in favor of appellee. The evidence not being on record it cannot be determined whether or not the judgment is erroneous.

Societies for Christian Work.
A mass meeting of all the Societies of Christian Endeavor in the city was held at the Y. M. C. A. building last night to make arrangements for the coming State convention, which will be held here on Oct. 2 and 3. E. C. Helm, of the First Baptist Church, was elected chairman, and prayer was offered by Rev. M. Brown, of the Sixth Presbyterian Church. The evening was devoted to the hearing of the report of the State secretary, Miss Bettie Wisban, on the proceedings of the Chicago convention, held last July, at which fifty delegates from Indiana were in attendance. At that time the following State officers were elected: President, Rev. J. C. Cromer, Ft. Wayne; vice-president, Rev. Mr. Miller, Evansville; secretary, Miss Bettie Wisban; treasurer, Rev. G. L. McNitt, city. In this city there are twenty branch societies, embracing over 1,000 members, and a large attendance is expected at the coming convention. Papers will be read by workers of both sexes, and, as the organization is un denominational, officers and pastors from various churches will be present. Among them: H. M. Ward, of Boston, the general secretary, Dr. Jno. Barrows, of the First Presbyterian Church, Chicago, and others.

Placing Electric Lights.
The Council committee on public light, with the assistance of the city civil engineer, has located the one hundred electric lights to be put up by the Brush company. According to the arrangements now made all that portion of the city lying between Ohio street on the north, South street on the south, New Jersey on the east, and Missouri on the west, will be lighted. In addition to this territory, Washington street will be lighted from White street to the head and Dumb Asylum; Meridian street from South to Seventh street; Massachusetts avenue its entire length; Virginia avenue to Prospect street; Kentucky avenue to West street, and Indiana avenue to West street. The lights, each 2,000 can die power, will be suspended at each street intersection. The Brush company has been supplied with a diagram showing the locations selected, and the work of putting in the lights will begin immediately. In locating the lights the committee had in view the serving of the business portions of the city, and also a desire to make a thorough test of the system in various parts of the city. It was decided to light Meridian to Seventh in order to test the lights on that portion of the city that is best adapted.
